The Skeletal System

Briefly describe the skeletal system.

Describe the primary functions of the various organs or structures of the skeletal system.

Identify and give the meaning of the primary word elements for this chapter. Analyze, build, spell, and pronounce selected medical words. Describe the parts of bones.

**Chapter 6: Bones
and Skeletal Tissue -
Pearson Education**

□The skeletal system is made up of the skeleton and the cartilages, ligaments, and other connective tissues that stabilize them. □Bone tissue, or osseous tissue, is the major component of the skeletal system. □Bones are dynamic organs made up of several tissues types.
